

impetus to the domestic manufactures of the Union than anything else we know of, and ultimately transfer to this side of the Atlantic a vast deal of the wealth of Manchester. The efforts made by the British manufacturers, within the past three months, to depress prices for cotton in Liverpool, show what they would do if they had the power; but, fortunately, hiders of cotton have the spinners at their mercy, and if they are no more merciful than the manufacturers have been in former years, they (the spinners) are to be pitied. We shall see a movement in the Liverpool cotton market before the lapse of many weeks, that will astonish all those who have adhered to estimates of a crop of two millions three hundred thousand bales. It is most extraordinary what little wind is required to inflate some of the Wall street bubbles, and it is curious to notice the action and progress of some of them to the explosive point. One of the most recent and most successful efforts made by speculators, is that in relation to the Canton Company. The most extravagant estimates have been formed of the value of the real estate belonging to this concern, and the value of the stock has been put down at par. Now, as it is only necessary to show the value of the real estate of the company to exhibit the complete humbug of the whole thing, we annex a statement submitted by the agent of the company, giving a report of sales and losses made by him, during the year ending June 1st, 1860.

SALES OF REAL ESTATE OF CANTON COMPANY.

Sold to Chinese Merchants, one quarter and fifteen acres of land, at \$92 per acre, payable in one, two and three years—equal to \$7 per lot.

Sold to Andrew Leeks about four acres of land, lying between the land owned by C. Shour and the land sold by the Company to S. Ellinger, at \$85 per acre—equal to \$6 per lot.

Sold to Daniel Sapp, about twenty-four acres of land at Herring Run, at \$30 per acre—equal to \$20 per lot.

Sold to Harmon Deuerhause, twenty acres of land near Herring Run, at \$30 per acre—equal to \$20 per lot.

Sold to John Jones, three and three quarters acres of land near the North Point Road, at \$30 per acre—equal to \$20 per lot.

Sold to John Glass, a lot of ground on Clinton street, between Seventh and Eighth avenues, sixteen feet front by one hundred feet deep, at eight dollars per annum.

Lent to John Glass, a triangular lot of ground, one and one-half acres, on Hudson street, and extending to the water of Harris' creek, at one hundred and eighty dollars per annum.

Lent to Conrad Fisher, a lot of ground on Clinton street, thirty feet front by one hundred feet deep, at thirty dollars per annum.

Lent to John Glass, a lot of ground on Elliott street, twenty feet front by one hundred feet deep, for a blacksmith and wheelwright shop, at twenty dollars per annum.

Lent to John Glass, a triangular lot of ground, one and one-half acres, on Hudson street, and extending to the water of Harris' creek, at one hundred and eighty dollars per annum.

Lent to Frederick Ketter, a lot of ground on Clinton street, twenty-one feet front by one hundred feet deep, at twenty-one dollars per annum.

The company have about two thousand eight hundred acres of land, all told, which, at twelve lots to the acre, would make thirty-three thousand six hundred lots, which, at \$18 per lot, would amount to \$225,000.

The number of shares of the company issued, is twelve thousand five hundred, which, at \$50, the present market price, amounts to \$225,000, so that the estimate of \$18 per lot must be realized, to yield the current price for the stock. Now, is it possible for anything like that to be realized on the average when we see sales of acres upon acres, at \$30 each, yielding but \$2.50 per lot.

It is stated that an application has been made to the Court of Chancery, or some other court, in Maryland, for an injunction to restrain the Canton Company from selling, or otherwise disposing of its real estate upon the ground that it cannot give a good title. A letter to this effect was read at the board to-day, by a director of the company, and we shall, probably, know more about it in a day or two.

Stock Exchange.

\$25,000 TO LOAN AT SIX PER CENT. ON BOND and Mortgagable Securities of the United States, or of the State of New York, or of any State, or of the District of Columbia, or of the City of New York, or of the Bank of New York, or of the New York Stock Exchange, or of John F. Conley, 60 Wall street.
